

TECHCOM FOR AGENCIES

You own the client relationship. We help you build the hard stuff.

Techcom partners with creative, experiential and marketing agencies when a client idea requires technical accuracy, physical fabrication or a product experience that goes beyond traditional agency production. Bring us in as a specialty production partner—from concept and engineering through fabrication, finishing, crating and installation support.

YOUR CREATIVE IDEA
+
OUR TECHNICAL & FABRICATION CAPABILITY
=
A PRODUCT EXPERIENCE PEOPLE REMEMBER

WHAT WE BUILD

Product Cutaways & Sectioned Displays

Engines, transmissions, vehicles, machinery and components presented so customers can see what makes the product different.

3D Printing & Scale Models

From CAD data to presentation-ready physical models, prototypes, oversized replicas and lightweight display components.

Interactive Product Displays

Touchscreens, sensors, lighting, motion, video and physical products integrated into engaging demonstrations.

AR / VR / MR & Digital Experiences

Immersive tools that help explain products, systems, processes and technical stories.

MORE CAPABILITIES

Animation & Technical Visualization

Turn complex engineering and product information into understandable visual stories.

Training Simulators & Demonstrators

Hands-on experiences for sales teams, technicians, dealers, customers and events.

Custom Fabrication & Lightweight Replicas

Purpose-built structures, product shells and hybrids engineered for realism, transport and repeated use.

Crating, Logistics & Installation Support

Custom engineered crating, modularization, shipping planning and onsite supervision when needed.

BUILT TO WORK WITH AGENCIES

Protect the relationship

We respect your client ownership and your role as lead agency.

Work behind the scenes

White-label and agency-led collaboration available where appropriate.

Fill the capability gap

Use Techcom when the idea requires engineering, fabrication or deep product knowledge.

A SIMPLE WAY TO THINK ABOUT TECHCOM

Your client's challenge	Techcom can help turn it into
"We need people to understand what is inside our product."	A cutaway, sectioned product or interactive display
"The real product is too heavy, large or expensive to ship."	A lightweight replica, scale model or 3D-printed solution
"We need a memorable trade-show or launch experience."	A physical + digital product experience
"Our technology is difficult to explain."	Animation, AR/VR, visualization or hands-on demonstration

HELPING MANUFACTURERS TELL THEIR PRODUCT STORIES SINCE 1976.

Indianapolis, Indiana

LET'S BUILD THE PART YOUR AGENCY CAN'T BUY OFF THE SHELF.
